## FOR IMMEDIATE RELEASE

### **Ewing Expands Residential & Commercial Sales Team in Colorado, Wyoming**

**June 15, 2007 Phoenix, AZ** — Ewing Irrigation, Golf, & Industrial is pleased to introduce two new additions to its Residential and Commercial Sales team: Ron Knutson, serving the state of Colorado, and Dean Kness, serving Ft. Collins, Colorado, extending north to Cheyenne, Wyoming.

Knutson joins Ewing with over 26 years of experience in the Green Industry, and specializes in water features and pond products. A proud member of the Associated Landscape Contractors of Colorado (ALCC), he is a professional gardener and Colorado Certified Nursery Professional. Knutson also is a Certified Veterinarian Technician of Fish Health and Disease through Dr. Sandy Yosha of Whitney Laboratories. He will operate out of Ewing's Highlands Ranch location at 9105 Commerce Center Circle in Colorado.

“Being ‘the’ water feature and pond specialist of Colorado most interests me because it has been a hobby of mine for 21 years. I am doing what I am passionate about,” states Knutson. “The potential here at Ewing—from our advanced website, and the diversity of markets served, to the invaluable team effort throughout the entire company—is really opening new avenues for me; I couldn’t be more proud to be part of this elite group.”

Kness began his career at age eight, assisting his father, who owned a general contracting company. With 12 years of experience in plumbing—including wet and dry piping sprinkler systems for new and existing construction sites—and recent experience working for a major retail supplier, Kness easily managed the transition to Ewing.

“It is nice working for Ewing because of their reputation in the industry. Our products have consistent quality, and are backed by years and years of service,” states Kness.

A jack of all trades, Kness also holds an associate’s degree in music from Iowa-based Grandview College, a bachelor’s degree in radio and TV production from University of Northern Iowa, and a Doctor of Chiropractic degree from Life Chiropractic College, San Lorenzo, California. Kness will operate out of Ewing’s Henderson location at 10220 Brighton Road in Colorado.

Ewing Irrigation offers commercial and residential irrigation supplies, landscape and agronomic products, water management solutions, low-voltage lighting, erosion control, water features and industrial plastics to professionals serving the landscaping, turf, golf, and industrial industries. Ewing offers more than 170 convenient locations from coast to coast.
